JANUARY—JUNE, 1957

References are to page numbers. An asterisk denotes title and reference only

- Abrams's heart reflex and variability in heart size, 26
- Abscess, cerebral, in cyanotic congenital heart disease, 324
- , pulmonary, topical and systemic chemotherapy, 190
- Absenteeism due to sickness, analysis of incidence in Moscow, 293
- Acetazolamide, action on gastric secretion, 239
- , anticonvulsant action in children, 51
- , in chronic cor pulmonale, 260
- N-Acetyl-*para*-aminophenol, analgesic properties, 158
- Acetylcholine arrest during cardiac surgery with hypothermia, 254
- Acetyldigoxin, clinical trials, 79
- Acetylmethadol control of chronic pain, 7
- Acetylsalicylic acid, *see* Aspirin
- Achlorhydria, gastric carcinoma with, 321
- Acid-fast bacilli, chromogenic, complicating pulmonary disease, 243
- Acidosis, diabetic, humoral insulin antagonists in, 338
- Acne, limits of safety of dermabrasion and subsequent regeneration of epidermis in, 285
- vulgaris, 351*
- Acrocyanosis, remittent necrotizing, 107
- ACTH, *see* Corticotrophin
- Actinomycin, antibiotic and cytostatic properties, 378
- Addison's disease and active tuberculosis, interrelationship, 119
- , cortisone alone and with deoxycortone acetate and sodium chloride in, 271
- , peptic ulcer during cortisone treatment, 119
- Adenocarcinoma, rectal, high-voltage x-ray therapy in primary treatment, 297
- Adenoma, hyperfunctioning, of islets of Langerhans, association of muscular atrophy with, 130
- Adenovirus from human adenoid tissue, infection of volunteers by, 161
- in acute respiratory disease, clinical and laboratory study, 160
- , in navy recruits, 160
- , HeLa cell cultures, neutralization test with, 375
- infection epidemics, 11
- , immunity and disease in adult volunteers, 235
- , neutralizing and complement-fixing antibody response to, 375
- of respiratory tract, 309
- , Type 8, antibodies in epidemic keratoconjunctivitis, 76
- vaccine to prevent acute respiratory illness in recruit training camps, 6
- , trivalent, efficacy in naval recruits, 60
- Adolescence, pulmonary tuberculosis in, surgical treatment, 312
- Adrenal atrophy in prolonged corticosteroid treatment, measures to avoid, 276
- cortex, chemical and clinical problems of, 44
- deficiency, replacement therapy with cortisone, 120
- , evolution of carbon-tetrachloride-induced cirrhosis and, 229
- function, corticotrophin zinc test of, 271
- , evaluation by corticotrophin stimulation, 195
- , regulation by dual mechanism, 120
- , influence of reserpine on, 377
- influences on stomach, 119
- insufficiency and active tuberculosis, interrelationship, 119
- Adrenalectomy, effects of insulin after, 41
- Adrenaline sensitivity of peripheral blood vessels in hypertension, 399
- Adrenergic blocking agents, effects on pulmonary circulation, 254
- Adynamia episodica hereditaria, 210*
- Agammaglobulinaemia, familial, 33
- Agnosis, visual, sensory deficits in, 345
- Agriculture, workers in, nitrogen dioxide and tetroxide pneumonia in, 215
- Air conditioning machine combined with electrostatic precipitator for removing ragweed pollen from atmosphere, 91
- contamination by micro-organisms and dust from clothing and bedding, 214
- , negatively ionized, effect on cold receptors of skin, 365
- pollutants, threshold limit values of, 217
- , toxicity of, 214
- pollution in Copenhagen by benzpyrene and other polycyclic hydrocarbons, 214*
- Alastrim, clinical experiences, 83*
- epidemic in The Hague, 212*
- Alcohol, effect on peptic ulceration, 94
- Alcoholism, chronic, Dupuytren's contracture in, 170
- , reserpine treatment, 427
- , with liver disease, response to alcohol in, 392
- Aldosterone activity, relation to sodium retention in heart failure, 259
- hypersecretion in Cushing's syndrome, 196
- secretion, effect of corticotrophin on, 270
- , inhibition by amphenone, 410
- , normal, and in oedema, effect of intravenous saline on, 336
- regulation, role of fluid volume in, 336
- Aldosteronism, primary, 335
- Aldosteronism, primary, due to adrenocortical hyperplasia, 44*
- , renal function in, 410
- Alkalosis in sodium and potassium depletion, 389*
- Allergy, 22, 91, 167, 251, 388. *See also* Anaphylaxis
- in connective-tissue disease, 343*
- to certain foods causing diarrhoea, 91
- , tree pollen in Great Britain and, 388
- "Allypropymal" poisoning, "megimide" and amiphenazole treatment, 218
- Alphaprodine, effect on respiration, 438
- "Ambonestyl" in cardiac arrhythmia, 79
- Amicetin, clinical studies, 81
- "Aminazine", physiological and morphological characteristics of blocking action on sympathetic ganglia, 157
- Amino-acids, administration in motor neurone disease, 282
- and kwashiorkor, 166
- metabolism in liver disease, 253
- Amino-aciduria in nephrotic syndrome, chromatographic study, 193
- p-Aminobenzolsulphonamido-*iso*-propylthiodiazole, effects on carbohydrate metabolism, 197
- Amino-2-methyl-6-heptanol hydrochloride in chronic pulmonary heart disease, 27
- Aminometradine, clinical trial, 79
- Aminophylline, oral, in angina of effort, 397
- Amiphenazole in "allypropymal" poisoning, 218
- Ammonia levels in transfused blood, 332
- metabolism and glutamate therapy in hepatic coma, 24
- Ammon's horn sclerosis with temporal lobe epilepsy, aetiological aspects, 280
- Amnion implantation in peripheral vascular disease, 32
- Amniotic fluid, effect in pathogenesis of hyaline membrane syndrome, 288
- Amodiaquin in chronic discoid lupus erythematosus, 285
- Amoebiasis, colonic, "glaucaurubin" treatment, 21
- , complement-fixation test in diagnosis and management, 387
- , diiodohydroxyquinoline, chloroquine, bacitracin, and neomycin combined in, 90
- , immobilization reaction in, 237
- , methods of intestinal invasion in early stages, 371
- , RO 2-1160 treatment, 20
- Amphenone inhibition of aldosterone secretion, 410
- Amphetamine in enuresis, 354
- Amyloidosis, cardiac, 173

- Amyloidosis, systemic, familial primary: experimental, genetic, and clinical study, 318
- Anaemia, haemolytic, auto-immune, reticulocytopenia in, 186
- , —, —, splenectomy in, 35
- , —, congenital, morphology of spleen in, 233
- , —, —, non-spherocytic, non-familial cases, 187
- in rheumatoid arthritis, 342
- — sepsis, pathogenesis, 331
- and iron metabolism in neoplastic disease, 331
- , iron-deficiency, methods of treatment compared, 111
- , megaloblastic, cyanocobalamin absorption in, 110
- , —, gastric biopsy in, 35
- , —, of pregnancy and puerperium, cyanocobalamin treatment, 35
- of chronic renal insufficiency, effect of serum from azotaemic patients on maturation of normoblasts in suspension cultures, 231
- — disseminated malignant neoplastic disease, life span of erythrocyte in, 111
- — pregnancy, intramuscular iron therapy, 34
- — prematurity, aetiology, pathogenesis, and iron requirement, 352
- , pernicious, absorption, elimination, and excretion of cyanocobalamin in, 34
- , —, blood group A and, 186
- , —, effect of cyanocobalamin on erythrocyte size in, 35
- , —, erythrokinetics in, 264
- , —, gastric carcinoma with, 321
- , —, incidence of Group-A blood in, 110
- , radiation, part played by destruction of circulating erythrocytes in genesis of, 362
- , sickle-cell, clinical and haematological studies of crisis in, 401
- , —, correlation of clinical features with behaviour of sickle cells *in vitro*, 303
- , —, hyposthenuria in, a reversible renal defect, 110
- , —, in children, blood volume relationships and use of plasma extender in, 33
- , —, — South Turkey, 401*
- , —, maintenance of a high rate of sickling in an African community, 109
- , —, sustained at normal haemoglobin levels by multiple transfusions, 263
- Anaesthesia, *see also* Analgesia
- , controlled positive- and negative-pressure respiration in, 143
- for surgery of nose, pharynx, larynx, and trachea, 407
- , heat-stroke during and after, 143*
- , hypotensive, electrocardiogram in, 220
- , muscle-relaxant, facial paralysis after, 48
- Anaesthetics, 64, 143, 219-22, 361, 437-8
- Analgesia, spinal, exacerbation of pre-existing neurological disease after, 361
- with nitrous oxide-oxygen-curare for major surgery in poor-risk cases, 143
- Anaphylaxis reactions in mesenteric vessels of guinea-pigs *in vivo*, 22
- Anastomosis, portacaval, in portal hypertension, 393
- Anatomy at Ospedale Maggiore, Milan, in 15th century, Leonardo da Vinci and, 148
- Androgens, oral, gynaecological uses, 121
- Aneurysm, cerebral, causing subarachnoid haemorrhage, results of treatment, 49
- , chronic post-infarction, of heart, surgical treatment, 259
- , congenital, of ventricular septum diagnosed during life, 394
- , intrasellar, clinical picture, diagnosis, and treatment, 50
- of patent ductus arteriosus, 394
- — subclavian artery associated with cervical rib, angiocardigraphic study, 330*
- Angina of effort, oral dihydroxypropyltheophylline and aminophylline in, 397
- pectoris, sodium calciumedetate treatment, 397
- —, follow-up study (25 years), 180
- —, natural history of, changing patterns of, 30
- —, prothrombin and fibrinogen levels in, 180
- —, "rauwiloid" treatment, 100
- —, sympathectomy in, follow-up study, 181
- —, visnagane treatment, 181
- Angiocardigraphy, contrast media in physiological effects, 144
- in assessment of operability of intrathoracic tumours, 144
- — demonstration of inoperability in carcinoma of lung, 113
- — diagnosis of mitral regurgitation, 326
- — patent ductus arteriosus and septal defects, 440
- — preoperative diagnosis of mitral stenosis and insufficiency, 225
- Angiography, carotid and vertebral, safe method, 439
- , cerebral, "hypaque" as contrast medium in, 224
- , intracardiac, controlled instantaneous intra-atrial release of contrast material in, 65
- Angioma, intracranial, mode of progression and surgical treatment, 128
- Anoxaemia, maternal, effect on foetal haemoglobin of newborn, 431
- "Ansolsen", *see* Pentolinium tartrate
- Antacid in peptic ulcer, glycine-calcium-carbonate mixture as, 390
- , neutralizing effect and antipeptic properties, 377*
- "Anthiomaline", intravenous, in urinary schistosomiasis, 90
- Anthrax immunization of man and monkey with antigen, 155
- Antibiotic administration, mycotic infections of lung caused by, 37
- dietary supplements in protein deficiency in children, 20
- therapy in otorhinolaryngology, 191
- Anticoagulants in myocardial infarction, selection of patients by heparin-retarded coagulation time, 30
- Antihæmophilic factor, assay using prothrombin conversion ratio, 303
- Antihæmophilic globulin, assay in plasma, 4
- Anxiety states, benactyzine treatment, 348
- Aorta, abdominal, diagnostic value of pulsation of, 319
- coarctation, course and prognosis, 182
- —, haemodynamic and clinical appraisal after resection and end-to-end anastomosis, 330
- — with patent ductus arteriosus, 101
- incompetence, severe, clinical study, 178
- insufficiency, rheumatoid spondylitis and, 47
- stenosis, assessment by percutaneous left ventricular puncture, 325
- —, calcific, direct-vision correction by means of pump oxygenator and retrograde coronary sinus perfusion, 103
- —, left heart catheterization in, 256
- —, so-called rheumatic valvular disease and, 395
- —, subvalvular, diagnosis during life, 176
- —, transventricular valvotomy with improved dilator in, 256
- —, valvotomy under direct vision during hypothermia for, 178
- Aortitis, syphilitic, penicillin treatment, statistical analysis of results, 398
- Aortography, translumbar, dissection of aorta in, 296
- A.P.C. virus, *see* Adenovirus
- Apoplexy, ephyllin and cortisone treatments, 278
- Appendicitis, acute, Lawson Tait and, 300*
- Appendix, necrotizing arteritis in, 372
- "Apresoline" in hypertension, evaluation, 182
- Arginine, urinary excretion by mongoloid children, effect of glutamic acid on, 427
- "Arlidin", peripheral vasodilator with selective action on muscle vessels, clinical evaluation, 107
- Armstrong, John and George, their work in field of child care, 364
- Arnold-Chiari malformation associated with spina bifida, morbid anatomy, 369
- Arrhythmia, "ambonestyl" treatment, 79
- , auricular fibrillation, effects of intravenous digoxin in, 396
- , —, quinidine treatment, 104
- , chronic atrial fibrillation, conversion to sinus rhythm by quinidine, 257
- complicating intracardiac surgery, molar sodium lactate in, 324
- , ectopic, effect of intravenous potassium chloride on, 257
- , ventricular fibrillation, in hypothermia, rewarming and electric shock for, 64
- , —, lignocaine in cardiac resuscitation from, 306
- Arteries, coronary, *see* Coronary
- , carotid, occlusion, angiographic study, 50
- , internal mammary, effect of ligation on myocardial insufficiency, 258

- Arteries, middle cerebral, spontaneous occlusion of, 50*
- , pulmonary, controlled unilateral occlusion in study of lung function, 333
- , —, massive thrombotic occlusion of, 324
- , vertebral and carotid, atheroma in cerebrovascular disease, 279
- , —, cervical portion, clinico-pathological study, 201
- Arteriography, cerebral, pathological effects, 49
- , post-mortem pulmonary, technique, 233
- Arteriosclerosis, coronary, changes in intramural coronary branches in, 151
- , —, in younger age group, 30
- , pulmonary, correlation with right ventricular hypertrophy and thrombo-embolism in mitral stenosis, 233
- Arthritis, distal senile obliterative, oral dibenylamine in, 330
- , necrotizing, in appendix, 372
- , —, pulmonary, interrelation with rheumatic heart disease, 370
- Arthritis, degenerative, controlled therapy, 126
- and psoriasis, relation between, 429
- , —, study of 34 cases, 415
- , rheumatoid, anaemia in, 342
- , —, aspirin and prednisolone in low dosage in, 413
- , —, bone-marrow changes in, 342
- , —, "butadion" treatment, 125
- , —, characteristic rash in, 126
- , —, chloroquine treatment, 341
- , —, comparative therapeutic trial, 341
- , —, functional state of higher nervous activity in, 276
- , —, haemodilution in, 46
- , —, hereditary predisposition to, 210*
- , —, hyaluronic acid treatment, 416
- , —, intra-articular hydrocortisone tertiary-butyl acetate in, 340
- , —, — and local administration of hydrocortisone by hypospray jet injector, 340
- , —, — procaine and hydrocortisone acetate in, 46
- , —, laboratory aids in steroid therapy, 415
- , —, measurement of activity of, 46, 47
- , —, muscular lesions in, histological study, 234
- , —, onset and progress, 341
- , —, positive L.E.-cell phenomenon in, 341
- , —, prolonged corticosteroid treatment, avoidance of adrenal atrophy in, 276
- , —, sheep-erythrocyte agglutination tests for, 340
- , —, specific substance in blood and joint fluid in, 46
- , —, synergistic action of isoniazid and cortisone in, 198
- , —, with chronic leg ulceration, 417
- , —, — intensive visceral involvement, clinical and pathological study, 125
- Arthur, Thomas (1593-1675), notable physician of Ireland, 444
- Asbestosis with pleural calcification in insulation workers, 359
- Ascites in Laennec's cirrhosis, portal hypertension as related to, 25
- , — relation to portal hypertension due to chronic occlusion of extrahepatic portion of portal vein, 97
- Aspirin and prednisolone in low dosage in rheumatic diseases, 413
- in myxoedema, comparison with DL-triiodothyronine, 335
- Asthma, *see also* Status asthmaticus
- , acute adrenaline-fast, molar sodium lactate treatment, 388
- , autosensitization, 388
- , chlorpromazine treatment, 22
- , chronic, aerosol hydrocortisone in, 167
- , — cor pulmonale in, steroid hormone treatment, 260
- , —, cortisone treatment, 167
- , — due to allergic sensitivity to castor-oil plant, 251
- , electrophoresis of serum protein in, 251
- in children, plasma 17-hydroxycorticosteroid concentrations in, 251
- , induction of acute allergic reactions by intravenous administration of allergens, 22
- , plasma protein pattern changes in, 251
- , prednisone and prednisolone treatment, 22
- , removal of ragweed pollen from atmosphere by electrostatic precipitator combined with air-conditioning machine, 91
- , sputum diagnosis complicated by bronchial infection, 388
- Atelectasis, "plane", 403
- , primary pulmonary, in newborn, 206
- Atheroma of vertebral and carotid arteries in cerebrovascular disease, 279
- Atherosclerosis, aetiological study, 181
- , arterial, problems in contemporary studies, 261
- , cerebral, calcium concentrations in, 149
- , coronary, *see* Coronary
- , sitosterol modification of abnormal serum lipid patterns in, 316
- Atrophy, familial progressive cerebellar, 420
- , muscular, associated with hyperfunctioning adenoma of islets of Langerhans, 130
- Atropine and hexamethonium, action on gastric secretion and motility, 239
- Auricularis magnus section in tic douloureux, 344
- Autohaemolysis, spontaneous *in vitro*, in haemolytic disorders, 369
- "Azapetine" in peripheral arterial disease, 32
- Azotaemia, renal, blood and urinary diastase in, interrelationship and diagnostic significance, 229
- "Bacto-strip" in rapid detection of coliform organisms in bile and urine, 235
- Barbiturate and leptazol combinations, effect of overdosage in man, 157
- narcosis, measurement of depth, 361
- poisoning, haemodialysis in, 63
- , morbid anatomical findings, 360
- Barbituric acid poisoning, "megimide" treatment, 218
- Barrier cream, "covicone", in prevention of occupational dermatoses, 293
- B.C.G., British freeze-dried, vaccination of newborn infants, 163
- vaccination in Basle, 243*
- , — tuberculosis epidemic in school, 12-year follow-up, 311
- , —, ulcers following, effect of isoniazid treatment on healing, 163
- vaccine, freeze-dried, clinical trial, 13
- , —, preparation of a standard product, 13
- Bedding, bacterial and dust content, 214
- Beds in hospital, best utilization, 291
- Behaviour, overactive, in children with cerebral damage, 137
- "Bemarsal" in acute amoebic dysentery, 387
- Bemegride, *see* "Megimide"
- Benactyzine in anxiety states, 348
- psychoneurosis, 348
- Benzanthrone manufacture, industrial hygiene problems in, 62
- "Benztropine" in Parkinsonism, 281
- Benzylpenicillin, oral, in children, blood levels after, 308
- , procaine, in gonorrhoea in men, 86
- with and without erythromycin, antistreptococcal and antistaphylococcal activity of plasma after ingestion, 308
- 3:4-Benzpyrene formation, inhibition in cigarette smoke, 365
- in smoke of cigarette paper, tobacco, and cigarettes, 365
- Betaine administration in motor neurone disease, 282
- Betatron therapy of advanced carcinoma of bladder, 223
- Bile, bilirubin glucuronide in, 69
- , coliform organisms in, rapid detection by "bacto-strip", 235
- duct disease, paper electrophoresis of serum proteins in, 302
- Bilharziasis, *see* Schistosomiasis
- "Biligradin forte" in cholecystangiography, 145
- , intravenous, in cholangiocholecystography, comparison with oral contrast method, 441
- Bilirubin glucuronide in serum, bile, and urine, 69
- , total output, effect of intravenous fat emulsions on, as measure of haemolysis, 252
- Black, Joseph (1728-1799), and beginning of chemical research in biology and medicine, 300*
- Bladder carcinoma, advanced, betatron therapy, 223
- , association with smoking, 115
- Blalock-Taussig anastomosis for pulmonary stenosis or atresia, 5-year follow-up, 176
- Blankets, *see* Bedding
- Blood circulation, *see* Circulation
- clot promoting activity of glass, 368*
- coagulability, despeciated plasma and, 185
- in myocardial infarction and angina pectoris, 180
- coagulation, acceleration and inhibition by phospholipids from brain tissue, 4
- defects in liver disease, 322

- Blood coagulation and dietary fat, relationship between, 4
- , inhibitory effect of neodymium on, 238
- , tests, lipid extracts of platelets and brain as substitutes for platelets in, 303
- , donors, universal, isoagglutinin and haemolysin screening procedures for, 71
- , flow, cerebral, effect of chlorpromazine on, 157
- , —, measurement in relation to electroencephalogram, 127
- , glucose level, effect of protein on, 338
- , grouping, ABO, large-scale, analysis of errors detected in, 368*
- , groups, A, pernicious anaemia and, 110, 186
- , —, ABO, association with peptic ulcer, 319
- , —, —, in peptic ulcer and gastric carcinoma patients, distribution, 94
- , —, —, relation to site and epidemiology of gastric carcinoma, 171
- , —, —, and Rh, grouping with Eldon cards, 232
- , —, —, and secretor character in duodenal ulcer, population and sibship studies, 357
- , —, Du, in routine Rh-typing and cross-matching procedures, 71
- , —, Rh testing by modified Chown technique, 232
- , —, in rheumatoid arthritis, specific substance in, 46
- , —, plasma electrolyte and total protein levels, variation in the individual, 1
- , —, platelet antibodies, identification and significance, 231
- , —, pressure, *see also* Hypertension; Hypotension
- , —, arterial, in syringomyelia, 347
- , —, neonatal, relation to maturity, mode of delivery, and condition at birth, 288
- , —, venous, in first hours of life, 353
- , —, serum, bilirubin glucuronide in, 69
- , —, copper content, relation to oxidative capacity of ceruloplasmin, 69
- , —, protein, electrophoretic study in chest diseases, 69
- , —, stored, ammonia levels in, 332
- , —, —, dangerous contaminants in, 332
- , —, sugar level in health and in diabetes, effects of carbutamide and tolbutamide on, 412
- , —, response test in selecting diabetics for oral treatment, 338
- , —, supply of trigeminal ganglion, 130
- , —, transfusion, exchange, in erythroblastosis foetalis, electrolytic considerations, 207
- , —, multiple, erythrocyte survival maintained at normal haemoglobin levels by, in sickle-cell anaemia, 263
- , —, vessels, *see also* Arteries; Vascular disease
- , —, of renal glomerulus as revealed by plastic reconstruction from serial sections, 193
- , —, peripheral, adrenaline sensitivity in hypertension, 399
- , —, —, arterio-venous communications, radiological manifestations, 65
- , —, pulmonary, in hypertension, histological study, 370
- Blood volume in gastro-duodenal haemorrhage, 94
- , —, relationships and use of plasma extender in sickle-cell anaemia in children, 33
- Body development in congenital heart disease, 27
- , fluid, *see* Fluid
- Boeck's sarcoid simulated by lipogranuloma, 371
- Bone changes in sarcoidosis, 310
- , disease associated with low serum phosphatase level, 318
- , —, in prolonged obstructive jaundice, 97
- , marrow changes in children with rheumatic fever and haemolytic streptococcal infections, 339
- , —, —, rheumatoid arthritis, 342
- , —, —, in ischaemia, 368
- , —, —, lead poisoning, 359
- , —, —, malignant disease, 368
- , —, salt metabolism in rickets, radioactive phosphorus study, 92
- Bradykinesia, visual, so-called, 420
- Brain, *see also* Angiography; Electroencephalogram; Encephalitis; Encephalomyelitis; Leucotomy; Meningitis; Meningo-encephalitis; Palsy, cerebral
- , abscess in cyanotic congenital heart disease, 324
- , aneurysm, subarachnoid haemorrhage due to, results of treatment, 49
- , arteriography, pathological effects, 49
- , atherosclerosis, calcium concentrations in, 149
- , blood flow, *see* Blood flow, cerebral
- , caudate nucleus extirpation, growth and behaviour of puppies with intact cerebral cortex after, 48
- , changes in children with rheumatic fever, 72
- , concussion, vertigo after, 278
- , cortex, sensorimotor, reactions of single neurone after electrical stimulation, 301
- , familial progressive cerebellar atrophy, 420
- , haemodynamics and oxygen metabolism, effect of chlorpromazine on, 157
- , haemorrhage, massive, prolonged hypothermia in, 202
- , —, present-day position of treatment, 422
- , infarction, cortisone treatment, 423
- , —, experimental, effect on transaminase activity in serum, cerebrospinal fluid, and infarcted tissue, 1
- , injury in children, overactive behaviour with, 137
- , lesions, laughter disorders due to, 422
- , manifestations of cyanocobalamin deficiency, 345
- , metastases from primary bronchial carcinoma, 406
- , phlebitis in children, diagnosis, 356
- , stem atrophy, electroencephalogram in unconscious patient with, 277
- , subarachnoid haemorrhage, communicating hydrocephalus from, 346
- , swelling of unknown cause, 345
- , temporal horn, development, normal variations and changes associated with non-expanding epileptogenic lesions of temporal lobe, 424
- Brain, third ventricle, paraphysial or colloid cysts of, radiological study, 224
- , tissue, phospholipids from, as accelerators and inhibitors of blood coagulation, 4
- , tumours in children, 290*
- , —, and injury, electroencephalography of pattern of brain potentials in, 420
- , —, radiological location, 439
- , —, radiotherapy, 147
- , vascular accidents, present-day position of treatment, 422
- , —, disease, amplitude of respiratory movements in, 128
- , —, atheroma of vertebral and carotid arteries in, 279
- , —, cervical portion of vertebral artery in, clinico-pathological study, 201
- , white matter, degeneration in severe dementia after head injury, 128
- Bread made with endrin-contaminated flour, food-poisoning due to, 139
- Breast carcinoma, palliation with phosphoramidate drugs, 240
- , lesions, ultrasonic diagnosis, 419
- Bronchiectasis, apical, correlation of tomographic and bronchographic findings, 311
- , familial incidence, 189
- , topical and systemic chemotherapy, 190
- Bronchitis, chronic, causes of persistent or intermittent cough in, 267
- , —, chlorpromazine treatment, 22
- , —, long-term chemotherapy, 190
- , —, social and economic consequences, 189
- Bronchography in diagnosis of "peripheral" primary lung carcinoma, 37
- Bronchus carcinoma, lymphatic and vascular spread, 370
- , nitrogen mustard treatment, 267
- , obstruction of superior vena cava in, 267
- , primary, brain metastases from, 406
- , review of 910 cases and results of treatment, 406
- , disease, pancreatic dornase aerosol in, 266
- , rupture, traumatic, in children, 403
- Brucellosis, meningeal, diagnosis and treatment, 280
